

## PHOTO PERMISSION 2017-2018

Dear Parent,

During the course of the school year, there will be occasions when the staff would welcome the opportunity to photograph your child. These times might include special school events, class trips, project displays or particular classroom lessons. These pictures or slides might be used as part of a school presentation or an exhibit in a local newspaper.

In order for the staff to publicize pictures of your child, we must ask for your written permission.

Additionally, parents and guardians often ask for phone numbers or addresses so that they can invite their child's friend to a birthday party or visit. In order for staff to release this information, we must ask for your written permission. We do not give out any phone numbers or addresses to people we do not know.

Thank you for your cooperation.

---

I give my permission for my child's photograph to be taken at school as part of a school function and submitted to the local media.
